

CIRCULOVE Ingredients

Circulove believes in transparency and traceability. We are proud of our small-scale and precise production process as well as the ecosystem we create while supporting local communities, producers and entrepreneurs. We source our vegan and sustainable ingredients - about 85% comes locally from Finland. Our green-chemistry production is also located in Finland. We use only clean, active ingredients. No fillers and nothing artificial or excess.

Benefits of natural fermentation (biotic skincare)

Once an ingredient is fermented, it's microbes break down into smaller, more absorbable molecules. This makes these ingredients much more efficient at performing their job. Therefore, fermentation helps the skin absorb more nutritional benefits. Fermentation creates new skin-enhancing properties like essential vitamins, antioxidants, probiotics, and enzymes that supremely nourish your skin.

Our unique slow fermentation method takes 3-5 weeks

What makes Circulove products so effective is that we use fermentation holistically covering all the active ingredients in the formula, not just some single ingredients or probiotic extracts. Even our natural oils are fermented! Handcrafted skillfully and fermented patiently in small batches in Finland, Circulove is a truly artisan, all-natural skincare.

Circulove SMOOTH Nourishing Face Oil:

Brightening, Moisturizing and Age-Defying Vegan Ingredients

Fermented Tapioca And Oat (origin: Finland) Oat is one of the most famous ingredients for sensitive skin – rich in proteins and lipids, oat helps to keep skin hydrated and calm. Oat is well suited for all skin types including sensitive and problem skin such as acne, eczema and psoriasis. Oats are also natural prebiotics.

Raspberry Seed Oil (origin: Finland) Raspberry seed oil offers anti-aging benefits of improving skin elasticity and suppleness, while softening and hydrating. Contains natural sunscreen and acts as a high antioxidant booster for fighting free radicals. Fights premature aging, acne, and helps heal eczema and psoriasis.

Blackcurrant Seed Oil (origin: Finland) provides unique relief from skin discomforts. Contains essential fatty acids, and is one of the richest nutritional sources of gamma linoleic acid (GLA), significant amounts of which are found in only a few oils. Blackcurrant is also rich in stearidonic acid (SDA), an important fatty acid for skin. The anti-inflammatory effects of both compounds are backed by scientific research. Blackcurrant seed oil contains omega-9 oleic acid along with natural forms of vitamin E and phytosterols.

Strawberry Seed Oil (origin: Finland) is made from the cold-pressed seeds of delicious strawberries. It's rich in omega 6 and 9, but its magic ingredient is ellagic acid which is a powerful anti-inflammatory antioxidant which helps to preserve collagen, protect from damage of UV exposure, and brightens skin. Strawberry seed oil is also rich in Vitamin E which helps skin to heal and protects the skin's mantle.

Willow Bark (origin: Finland) is a source of natural hydroxy acids that gently exfoliate dead skin cells on the surface of the skin to reveal younger, newer cells underneath. The result is smoother, softer skin. Based on the fermentation process with *Lactobacillus Bulgaricus* in a special nutrient solution, probiotic active ingredients are obtained. Therefore, *Lactobacillus Ferment Lysate* is able to increase collagen production.

Grapeseed Oil (origin: England) is rich in many superior compounds: beta-carotene, vitamins D, C, E, and polyphenols. It's unique fatty acid components fortify the skin barrier while smoothing and balancing the skin. Thanks to the multitude of polyphenols found in grapeseed oil, these gems help combat premature aging and wrinkles.

Rosehip Oil (origin: England, organic) is packed with beauty essentials like fatty acids and vitamins A, C and E. These ingredients allow rosehip oil to treat signs of aging, hydrate skin and provide a strong protective antioxidant booster.

Sunflower Seed Oil (origin: England, organic) Sunflower seed oil is a great source of vitamin E, rich in nutrients and antioxidants, and is effective for combating skincare issues like acne, inflammation, general redness and irritation of the skin. Sunflower oil has emollient properties that help the skin retain its moisture.

Camelina Oil (origin: Finland) is rich in essential fatty acids, especially omega-3. Perfect for dry skin.

Squalane from Olives (origin: Italy) Light and effective moisturizer. Balances skin oiliness.

Natural Scent from Cucumbers (origin: Finland) and Green and White tea (origin: Sri Lanka)
Cucumbers contain plenty of vitamins, nutrients and antioxidants. Green and white tea are effective in soothing dry skin and hydrating.
